## About Me

Full-stack developer with 3 years of experience in the field, including 2 year as a team lead at our company. I possess strong critical analysis skills and have successfully managed multiple projects during my tenure as a team lead. My expertise spans both front-end and back-end development, and I thrive in environments that demand problem-solving, leadership, and effective project management.

## Education

### Bachelor of Science in Information Technology

2017 - 2022

*Western Mindanao State University*

## Work Experience

### iTech Rar

2022 - 2025 (Current Working)

### Integrated School Management System

As a team lead, I lead the development and integration of a comprehensive School Management System, streamlining administrative processes such as student enrollment, grading, attendance tracking, and fee management. I collaborated with cross-functional teams to analyze user requirements, ensure seamless module integration, and enhance system functionality. My contributions optimized system performance, ensured scalability to meet the institution's growing needs, and improved user experience through regular maintenance, troubleshooting, and the implementation of new features. My leadership fostered effective communication and coordination, driving project success and stakeholder satisfaction.
